

CONFIDENTLY EXPAND INTO CALIFORNIA'S BEAUTY MARKET

California has restrictive cosmetic standards that are additive to U.S. MoCRA requirements. Meeting these regulations requires time, expertise, and attention to detail that can strain internal resources and delay product launches.

Registrar Corp partners with brands to simplify compliance from start to finish. Our experts review formulas, analyze ingredients, and manage required filings so your team can stay focused on innovation, growth, and customer trust.

Why Brands Choose Registrar Corp

Accelerate market entry with filings managed end-to-end

Reduce compliance risk and prevent fines, relabeling, and recalls

Earn retailer confidence with verified, ready-to-share documentation

Depend on proven expertise with more than 20 years of global regulatory experience

Ingredient Check™

Focused. Flexible. Fast.

A targeted option for companies that want expert verification of their ingredient list and clarity on what California requires, without the added cost or depth of a full cumulative concentration review.

- Ingredient-level review (INCI only) to identify potential California-specific concerns
- Allergen screening when applicable
- Early visibility into Proposition 65 ingredient considerations
- Insight into CSCP public database reporting requirements
- Identification of fragrance and flavor components subject to SB 312
- Reporting support available when you are ready to file

The Advantage:

Empower your R&D or formulation team to make smarter, faster product decisions while staying aligned with California regulations.

Best For:

Brands that are budget-conscious or already have internal review processes in place and want a second set of expert eyes to confirm what must be disclosed or reported in California.

FormulaComply™

Complete Confidence. Zero Guesswork.

A fully managed solution for brands that want total assurance their products meet California's strictest requirements.

- Comprehensive formula review to identify hidden compliance risks before launch
- Ingredient-level & cumulative concentration analysis for complete safety alignment
- Ingredient disclosure for Proposition 65
- CSCP public database reporting completed by Registrar Corp
- Fragrance and flavor ingredient reporting required under SB 312
- Expert guidance for every submission to ensure accuracy and approval

The Advantage:

Save time, reduce costs, and eliminate the need to build an internal compliance function. FormulaComply™ gives you peace of mind that every formula, label, and filing is handled correctly and delivered on schedule.

Best For:

Established brands and exporters to U.S. that want full-service compliance management and guaranteed readiness for California.

Start With Confidence

Let's make California your easiest market to enter, not your hardest to navigate.
